HOMETOWN HEROES

Banner Program

The Village is pleased to be accepting applications for the Hometown Hero Banners this spring! Each individual banner will be to honor a specific “Hometown Hero” who has served or is currently serving our country. The red, white and blue banners feature the name of the service person, their branch of service, era of service and a service photo of the veteran or service member. The banner will be the same design on both sides. If you are interested in recognizing your special Hero in this program, applications and more information is on the Village’s website and at the Village office. The Village doesn’t know when we’ll have this opportunity again.

Application Deadline: April 30th
